KREST

KKR Real Estate Select Trust, Inc

Property Profiles | Q2 2025

This presentation should not be viewed as a current or past recommendation or a solicitation of an offer to buy or sell any securities or to adopt any investment strategy, and must be read in conjunction with the prospectus in order to understand fully all of the implications and risks of the offering to which this presentation relates. A copy of the prospectus must be made available to you in connection with this offering, and is available at www.KREST.reit.

On the cover: NEMA Chicago. KREST does not own NEMA Chicago and the asset serves as collateral for a loan held by KREST. The case studies presented herein are for illustrative purposes only and reflect real estate equity and real estate credit transactions, excluding CMBS, closed by KREST as of June 30, 2025; please refer to page 4 and page 23 for additional detail on KREST's investments. Any views noted above are as of the date of this presentation are that of KKR and subject to change.

KKR Real Estate Select Trust Inc.

Overview

KREST provides access to the potential benefits of private real estate equity and credit in a single, diversified fund. Its flexible and thematic approach across income-oriented real estate equity and credit may help to navigate through all market environments.

KREST Strategy

Balanced and diversified portfolio across three investment pillars:

STABILIZED REAL ESTATE	PRIME SINGLE TENANT	REAL ESTATE CREDIT
		
Stabilized, income-generating assets in growing sectors and markets with favorable supply/demand dynamics	High quality real estate paired with long-term triple-net leases to credit-worthy tenants, seeking to create attractive, contractual tax-efficient yield	Defensive income, where the collateral and structural seniority help to support an attractive risk-return and a floating rate structure may hedge against inflation and rising rates

Exposure to high-growth markets across the U.S. and developed Europe/Asia

KREST Shareholder Priority Plan

A KKR affiliate (KAA) has committed up to ~\$200 million in KREST Shares to support a higher KREST NAV/Share of up to \$27/share on June 1, 2027 for current and prospective KREST Shareholders¹

This commitment underscores KKR’s exceptional alignment with KREST shareholders, confidence in KREST’s strategy, and conviction in a real estate recovery.

1. For illustrative purposes only. This material is being provided merely to provide a framework to assist in the implementation of an investor’s own analysis and an investor’s own views on the topic discussed herein. If the full 7.7 million shares is not sufficient to reach \$27.00 then KKR will not be obligated to cancel additional shares. As a result there is no guarantee that there will be sufficient support shares to reach a \$27.00 NAV per share. No KREST shares would be contributed prior to June 2027. Past performance is not indicative of future results. There can be no assurance that KREST will achieve its investment objectives or avoid losses. Lower price volatility is no guarantee against future losses. The Fund employs leverage, which increases the volatility of investment returns and subjects the Fund to magnified losses if investments decline in value. Please see the Prospectus for further information on the Fund’s terms, provisions and risk factors.

On June 4, 2024, KKR Alternative Assets LLC (“KAA”) contractually committed to the Fund to continue to hold approximately 7.7 million of KREST Class I shares currently owned by KAA, representing approximately \$185 million based on the Fund’s NAV as of June 30, 2025 (the “Support Shares”) through June 1, 2027 and, to the extent necessary, contribute such shares to the Fund to support a NAV per share of \$27.00 per share for each class on such date (the “Shareholder Priority Plan”). If the contribution of the Support Shares is not sufficient to reach a NAV per share of \$27.00, KAA will contribute all such Support Shares to support KREST’s NAV per share on such date. While the Shareholder Priority Plan is a contractual obligation to support the Fund’s NAV per share, there is no guarantee the contribution of the Support Shares will be sufficient to achieve a \$27.00 NAV per share on June 1, 2027. For the avoidance of doubt, KAA is not obligated to contribute shares prior to June 1, 2027, and KAA is not obligated to contribute any of the Support Shares if the NAV per share for each class equals or exceeds \$27.00 per share on June 1, 2027. If KAA were to effect the Shareholder Priority Plan today it would contribute 6.1 million shares (out of the total 7.7 million shares agreed to be contributed) to KREST, which would result in a NAV per share of \$27.00 per share for each class. KAA’s allocation of \$50 million in new capital investment in KREST along with any future investments are not subject to subordination and/or cancellation.

\$686B	In client AUM	\$262B	Invested in total real estate assets and loans ²
\$28.6B	Invested alongside our clients from KKR and employees in our own products ¹	\$82B	In client AUM ³
~4,600	Employees	140+	Dedicated investment and asset management professionals ⁴
37	Offices on 4 continents serving local markets	16	Offices in 11 countries

Note: Please refer to definitions and important disclosures in the Glossary of Terms starting on page 25. All figures are as of June 30, 2025 unless otherwise noted. Please see "Glossary of Terms & Important Information - Risk Disclosures and Other Information" for important information regarding the calculation of AUM. Diversification does not assure a profit or protect against loss in a declining market. The Fund is classified as "non-diversified" under the 1940 Act and is not intended to be a complete investment program. Structural Seniority is no guarantee against future losses or the receipt of interest and/or principal payments. The Fund employs leverage, which increases the volatility of investment returns and subjects the Fund to magnified losses if investments decline in value. Past performance does not guarantee future results. There can be no guarantee that current trends will continue. The investment return and principal value of an investment will fluctuate so that an investor's shares, when repurchased, may be worth more or less than their original cost and current performance may be lower or higher than the performance data quoted. Class I performance information is presented above; **please refer to www.krest.reit/performance for additional performance information, including performance details for Class U, Class S and Class D shares.** Class I inception date is July 2, 2020. Net Distribution Rate reflects the annualized monthly dividend for June 2025 divided by the month-end NAV for the respective share class. For important information regarding the Net Distribution Rate, please refer to the Glossary of Terms on page 25. There is no assurance we will pay distributions in any particular amount, if at all. Any distributions we make will be at the discretion of our board of directors. KREST may pay distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital, or offering proceeds. For the year ended December 31, 2024, 80% of KREST's distributions were funded through adjusted funds from operations ("AFFO"). **1.** Source: KKR & Co. Inc. Form 10-K for year end December 31, 2024. Includes investments /commitments made by KKR's balance sheet, KKR employees, KKR Capstone, and other affiliates. Investments made by current and former KKR employees and KKR Capstone are retained by those individuals personally. Includes unfunded commitments made by individuals. **2.** Represents current gross asset value across all KKR real estate transactions. Foreign exchange rates as of September 4, 2024, as applicable. **3.** Figures represent AUM across all KKR real estate strategies as reported by KKR & Co. Inc. (NYSE: KKR) as a public company. Strategies include, as applicable, Real Estate Partners Americas, Real Estate Partners Europe, Asia Real Estate Partners, Property Partners Americas, Property Partners Europe, Asia Property Partners, Real Estate Credit, estimated value of Global Atlantic assets, Real Estate NBFC, KJRM, KREST and coinvestments. **4.** As of June 2025. *No Sales Load.

Real Estate Equity Portfolio Summary

as of June 30, 2025

Note: All figures as of June 30, 2025 based on market value. Percentages may not sum to 100% due to rounding.

1. Excludes equity investment deposits. 2. Excludes real estate credit and equity investment deposits. 3. "Residential" includes multifamily and other types of rental housing such as single family rental properties. As of June 30, 2025, KREST allocation to multi and single family rental properties are 15% and 7% respectively. 4. Real Estate Credit includes private real estate debt, including securities, and preferred equity.

El Camino Real

Investment Highlights

- 2017-vintage, mixed-use asset in Palo Alto, CA, anchored by a long-term office lease to JP Morgan
- Asset is located, adjacent to both Stanford University and major office submarkets, and represents a rare opportunity to own a fee-simple office asset in the Palo Alto market
- Asset is expected to benefit from high-barrier-to-entry nature of the Palo Alto market, where there are significant supply barriers, including a development cap that limits office development

UNDERLYING PROPERTY TYPE

Investment Highlights

- KREST's real estate credit portfolio consists of both private loans and real estate securities
- Emphasize real estate credit positions backed by high-quality real estate and strong sponsorship with attractive yields, primarily floating rate pricing, and structural seniority
- Allocation to real estate securities provides an efficient source of liquidity
- KREST's Real Estate Credit portfolio is unlevered, which we believe may support liquidity across market environments

of Real Estate Credit Investments Financed with Leverage

There can be no assurance that KREST will achieve its investment objective or avoid losses. Structural Seniority is no guarantee against future losses or the receipt of interest and/or principal payments. The Fund employs leverage, which increases the volatility of investment returns and subjects the Fund to magnified losses if investments decline in value. Diversification does not assure a profit or protect against loss in a declining market. The Fund is classified as "non-diversified" under the 1940 Act and is not intended to be a complete investment program. There can be no assurance that the trends described herein will continue or benefit the Fund. Any transactions that have not closed are subject to customary closing conditions and there is no guarantee that such transactions will be consummated, and if consummated, will be consummated on the terms and prices currently anticipated by KKR. Any views noted above are as of the date of this presentation are that of KKR and subject to change. Please see the Prospectus for further information on the Fund's terms, provisions and risk factors. Please refer to the "Real Estate Equity Portfolio Summary" on page 4 for additional detail on KREST's real estate equity investments as of June 30, 2025. 1. Reflects KREST's real estate credit investments, weighted by the par value of each position. 2. Reflects the average equity subordination of KREST's real estate credit positions, weighted by the par value of each position. 3. Reflects the average interest rate of KREST's real estate credit positions, weighted by the par value of each position. The interest rate is the rate received by the lender and may be fixed or may be tied to the benchmark interest rate (typically SOFR or LIBOR) plus a spread, as applicable.

1. The interest rate is the rate received by the lender and may be fixed or may be tied to the benchmark interest rate (typically SOFR or LIBOR) plus a spread, as applicable.

Glossary of Terms

The **Select Images** of certain KREST investments in this presentation are provided for illustrative purposes only, are not representative of all KREST investments in a given property type and are not representative of KREST's entire portfolio. It should not be assumed that KREST's investments in the properties identified and discussed herein were or will be profitable.

Properties and Occupancy are reported based on the equity portion of the KREST portfolio. Excludes equity investment deposits and Real Estate Credit, which includes private real estate debt, including securities, and preferred equity. Property count excludes single family rental homes. Occupancy excludes single family rental homes that have been acquired and/or renovated, as applicable, within 3 months or less.

Purchase Price represents the gross purchase price of real estate held by KREST's unconsolidated subsidiaries, including any portion not owned by the Fund and excluding any applicable closing costs. As of June 30, 2025, the Fund's economic interest in such joint ventures ranges from 50.5% to 99.5%. For financial reporting purposes, KREST includes the fair value of its equity interests in these subsidiaries in its total assets. As of June 30, 2025, the estimated fair value of the Fund's net equity interest in these subsidiaries is \$857.5 million.

Assets Under Management or **AUM** represents the assets as to which KKR Registered Advisor LLC (the "Adviser") or its affiliates (collectively "KKR") is entitled to receive a fee or carried interest. KKR's calculation of AUM may differ from the calculations of other asset managers and, as a result, KKR's measurements of its AUM may not be comparable to similar measures presented by other asset managers. KKR's definition of AUM is not based on the definitions of AUM that may be set forth in agreements governing the investment funds, vehicles or accounts that it manages and is not calculated pursuant to any regulatory definitions.

Annualized ITD Net Return: Performance since inception through date indicated. Class I inception date is July 2, 2020; Class U inception date is June 30, 2021; Class D inception date is March 4, 2022; Class S inception date is September 9, 2022. On May 11, 2023, KREST's outstanding Class D shares were converted to Class I shares, and there were no outstanding Class D shares between May 12, 2023 and September 18, 2023. For periods including May 11, 2023 through September 18, 2023, which includes the monthly, 3-month, YTD, and ITD periods, net returns presented for Class D are calculated based on actual performance for Class I plus the impact of the Servicing Fee of 0.25% per annum applicable to Class D shares, as detailed in the Fund's Prospectus. Commissions, fees and expenses are identical between Class D and Class I shares, with the exception of the Servicing Fee. For purposes of performance calculation, Class D inception date reflects the original share class inception date of March 4, 2022. Class D re-issue inception date is September 19, 2023. There have been no changes to the Class D share class specifics from inception to re-issuance. ITD performance number is annualized if time period is longer than one year. Reflects the percentage change in NAV per share plus the applicable distributions per share for the applicable period. Assumes the reinvestment of distributions pursuant to the Fund's distribution reinvestment plan. Past performance is historical and not a guarantee of future results.

Net Distribution Rate: Net Distribution Rate: Reflects the annualized monthly dividend for June 2025 divided by the month-end NAV for the respective share class. KREST intends to make distributions necessary to maintain its qualification as a real estate investment trust. However, there is no assurance that we will pay distributions in any particular amount, if at all. Any distributions we make will be at the discretion of our board of directors. KREST may pay distributions from sources other than cash flow from operations, including without limitations, the sale of assets, borrowings, return of capital or offering proceeds. For the year ended December 31, 2024, 80% of KREST's distributions were funded through adjusted funds from operations ("AFFO"). The Fund defines AFFO as the increase in net assets applicable to common stockholders from operations (calculated in accordance with GAAP), excluding (i) the change in net unrealized (appreciation) depreciation of investments, (ii) amortization premium (accretion of discount) on real estate securities, (iii) amortization of deferred origination fees on real estate loans, (iv) amortization of deferred financing costs, (v) management and incentive fees paid in shares of the Fund and (vi) realized and including undistributed income attributable to the Fund's unconsolidated subsidiaries. This statement is not an indication of the tax treatment of any KREST distributions. Stockholders will be informed of the tax characteristics of any distributions after the close of KREST's fiscal year. For the 2024 tax year, 100% of KREST's distributions were classified as Return of Capital ("ROC"). As of June 30, 2025, the Class I net distribution rate is 6.51%, the Class U net distribution rate is 5.67%, the Class D net distribution rate is 6.26% and the Class S net distribution rate is 5.66%.

Trophy Real Estate refers to new or newly-renovated, "state-of-the-art" properties with prime locations in high-conviction markets.

Mezzanine Loan refers to an unsecured loan that sits between senior debt and equity in the capital stack.

Equity Subordination means the percentage of a capital stack that is more junior to the last-dollar exposure of a loan.

Risk Disclosures and Other Important Information

RISK DISCLOSURES AND OTHER IMPORTANT INFORMATION

KKR Real Estate Select Trust Inc. ("KREST") is a non-diversified, closed-end management investment company that intends, under normal market conditions, to invest at least 80% of its net assets (plus the amount of its borrowings for investment purposes) in a portfolio of real estate, including in the form of direct property investments and debt interests and to a lesser extent in traded real estate-related securities. KREST is a Maryland corporation and has elected to be taxed as a real estate investment trust for U.S. federal income tax purposes under the Internal Revenue Code of 1986, as amended.

Summary of Risk Factors. Investing in KREST involves risks, including the risk that a stockholder may receive little or no return on his or her investment or that a stockholder may lose part or all of his or her investment. KREST should be considered a speculative investment that entails substantial risks, and a prospective investor should invest in KREST only if they can sustain a complete loss of their investment. You should read the prospectus carefully for a description of the risks associated with an investment in KREST. These risks include, but are not limited to, the following:

An investment in KREST is suitable only for investors who can bear the risks associated with private market investments with potential limited liquidity. Shares of KREST's common stock (the "Common Stock") should be viewed as a long-term investment within a multi-asset personal portfolio and should not be viewed individually as a complete investment program.

KREST expects to ordinarily pay distributions on a monthly basis; however, KREST cannot guarantee that it will make distributions and the amount of distributions that KREST may pay, if any, is uncertain.

KREST may pay distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital, or offering proceeds.

Investors will pay offering and organizational expenses and, with respect to certain share classes, may also bear upfront sales loads and/or dealer manager fees. Investors in Class I Shares, Class D Shares and Class U Shares may be charged transaction or other fees directly by financial intermediaries. The Fund will also pay KKR Capital Markets LLC (the "Distributor") servicing and/or distribution fees with respect to certain share classes. Generally, the Distributor will pay all or a portion of the servicing and/or distribution fees to participating selling agents. Please refer to the prospectus for additional information regarding the fees and expenses related to an investment in KREST. You will have to receive a total return at least in excess of these expenses to receive an actual return on your investment.

The Common Stock has no history of public trading, nor is it currently intended that the Common Stock will be listed on a public exchange or any other trading market in the near future. No organized secondary market is expected to develop for KREST's shares. Limited liquidity may be provided through periodic tender offers at KREST's net asset value per share of Common Stock.

There is no guarantee that repurchases will occur or that an investor will be able to sell all the Common Stock that the investor desires to sell in a tender offer. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Due to these restrictions, an investor should consider an investment in KREST to be illiquid.

Investing in the Common Stock may be speculative and involves a high degree of risk. The Fund employs leverage, which increases the volatility of investment returns and subjects the Fund to magnified losses if investments decline in value.

The Fund's investments in real estate are subject to the risks typically associated with real estate, including but not limited to: local, state, national or international economic conditions; lack of liquidity inherent in the nature of the asset; reliance on tenants and property managers; financial difficulty or lease default of a major tenant; declining occupancy rates; competition for properties; effects of inflation; and interest rate fluctuations and lack of availability of financing.

Many countries have experienced outbreaks of infectious illnesses in recent decades, including swine flu, avian influenza, SARS and COVID-19 (the "Coronavirus"). For example, beginning in December 2019, the Coronavirus pandemic has resulted in numerous deaths, the imposition of quarantine measures, border closures and travel restrictions, and disruptions to the global economy, including disruptions to global supply chains and an increase in inflationary pressures in the U.S. and globally. The ongoing pandemic has had, and will continue to have, a material adverse impact on local economies in the affected jurisdictions and also on the global economy, as cross border commercial activity and market sentiment are increasingly impacted by the outbreak and government and other measures seeking to contain its spread. While the development and distribution of vaccines have slowed the spread of the virus and allowed for the resumption of reasonably normal business activity in the United States, many countries continue to impose lockdown measures in an attempt to slow the spread. Additionally, there is no guarantee that vaccines will be effective against emerging variants of the disease. As this pandemic illustrated, such events may affect certain geographic regions, countries, sectors and industries more significantly than others. These events also adversely affect the prices and liquidity of the Fund's portfolio securities or other instruments and could result in disruptions in the trading markets. Any of such circumstances could have a materially negative impact on the value of the Fund's shares and result in increased market volatility. The operations of KKR (including those relating to the Fund) have been, and could continue to be, adversely impacted, including through quarantine measures and travel restrictions imposed on KKR personnel or service providers based or temporarily located in affected countries, or any related health issues of such personnel or service providers. Any of the foregoing events could materially and adversely affect the Fund's ability to source, manage and divest its investments and its ability to fulfill its investment objectives. Similar consequences could arise with respect to other comparable infectious diseases.

Risk Disclosures and Other Important Information

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Past performance is no guarantee of future results. This sales material must be read in conjunction with KREST's prospectus in order to fully understand all the implications and risks of an investment in KREST. Please consult a financial professional for share class availability and appropriateness. This sales material is neither an offer to sell nor a solicitation of an offer to buy securities. An offering is made only by the prospectus, which must be made available to you in connection with this offering and is available at www.krest.reit. Prior to making an investment, investors should read the prospectus, including the "Risks" section therein, which contain the risks and uncertainties that we believe are material to our business, operating results, prospects and financial condition. Numerical information is approximate and as of June 30, 2025, unless otherwise noted. The words "we," "us" and "our" refer to KREST and its subsidiaries, unless the context requires otherwise.

KKR or its affiliates own or have invested in the properties depicted in this sales material. By investing in KREST, investors will not have an interest in all of these properties. Please see the "Portfolio" page on our website www.krest.reit for an overview of the current properties in KREST's portfolio.

An investment in KREST is not a direct investment in real estate, and has material differences from a direct investment in real estate, including those related to fees and expenses, liquidity and tax treatment. KREST's share price is subject to less volatility because its per share NAV is based on the value of the real estate assets it owns and is not subject to market pricing forces as is the price of corporate and treasury bonds. Although KREST's share price is subject to less volatility, the value of real estate may fluctuate and may be worth less than was initially paid for it. KREST shares are significantly less liquid than US REITs, equities and corporate bonds, and are not immune to fluctuations.

Investors should consider the investment objectives, risks, and charges and expenses of an investment in KREST carefully before investing. The prospectus contains this and other information and may be obtained on www.krest.reit. The prospectus should be read carefully before investing.

IMPORTANT DISCLOSURE ABOUT OTHER KKR REAL ESTATE FUNDS

Prospective investors should note that the investment programs, objectives, leverage policies and strategies of KKR's other real estate funds are substantially different from the investment program and objectives of KREST, despite each strategy focusing on making real estate-related investments. Additionally, certain investment opportunities that may be appropriate for KREST may be allocated to other existing or future funds, investment vehicles and accounts managed by KKR and its affiliates. Currently, KKR manages funds that invest in "core+" real estate in the United States, Europe and Asia (which are generally substantially stabilized assets generating relatively stable cash flow), with a focus on multifamily housing, build-to-rent properties, industrial properties, offices in innovation markets, senior housing and student housing (together with future accounts with similar investment strategies, the "Private Core+ Accounts"). KKR believes it is likely that there will be a limited overlap of investment opportunities for us and the Private Core+ Accounts because of our primary investment objective of providing current income. KKR also manages KKR Real Estate Finance Trust Inc. and other investment vehicles and accounts, which invest in loans collateralized by commercial real estate (the "RE Credit Accounts"). KKR believes it is also likely that there will be a limited overlap of investment opportunities for the Fund and the RE Credit Accounts because the Fund's focus on private mezzanine and preferred equity debt interests as compared to the RE Credit Accounts' investment focus on transitional whole loans. KKR also manages KKR Real Estate Credit Opportunities L.P., KKR Real Estate Stabilized Credit Partners L.P. and other vehicles and accounts, which invest in the risk retention securities of commercial mortgage securitizations along with other CMBS securities senior to risk retention tranches in commercial mortgage securitizations secured by institutional quality real estate assets (the "Risk Retention Accounts"). KKR expects there could be overlap of investment opportunities for the Fund and the Risk Retention Accounts for a limited subset of available investments opportunities. The information provided herein regarding the other KKR Real Estate funds is, therefore, provided solely for background purposes.

Risk Disclosures and Other Important Information

OTHER IMPORTANT DISCLOSURES

The information in this presentation is only as current as the date indicated, and may be superseded by subsequent market events or for other reasons. Nothing contained herein constitutes investment, legal, tax or other advice nor is it to be relied on in making an investment or other decision. This sales material should not be viewed as a current or past recommendation or a solicitation of an offer to buy, sell or market any securities or to adopt any investment strategy.

Participation of KKR Credit, KKR Capital Markets, and KKR Capstone personnel in the private markets investment process is subject to applicable law and inside information barrier policies and procedures, which may limit the involvement of such personnel in certain circumstances and the Adviser's ability to leverage such integration with KKR. Discussions with senior advisors and employees of the KKR's managed portfolio companies are also subject to the inside information barrier policies and procedures, which may restrict or limit discussions and/or collaborations with. See "Conflicts of Interest" in the prospectus for further information on KKR's information barrier policies and procedures.

The purchase and repurchase price for shares of our common stock will be based on the NAV of each class of common stock and will not be based on any public trading market. Because valuation of properties involves subjective assumptions and projections, our NAV may not accurately reflect the actual price at which our assets could be liquidated on any given day. It also may be difficult to reflect fully and accurately rapidly changing market conditions or material events that may impact the value of our commercial real estate investments between valuations, or to obtain complete information regarding any such events in a timely manner. As a result, our NAV per share may not reflect a material event until such time as sufficient information is available and the impact of such an event on a property's valuation is evaluated in accordance with our valuation policies. Potential investors should consider the investment objectives, risks, and charges and expenses of KREST carefully before investing; the prospectus contains this and other information and is available at KREST.REIT. The prospectus should be read carefully before investing.

Employees of KKR Capital Markets LLC located in the United States are dual employees of Kohlberg Kravis Roberts & Co. L.P.
