Past performance is not a guarantee of future results. The NAV for Fund shares will fluctuate with market conditions. Investing in the Fund involves risks, including the risk that you may receive little or no return on your investment or that you may lose part or all of your investment. The Fund is a newly organized, non-diversified, closed-end management investment company that invests primarily in commercial real estate in the United States . The Fund intends, but is not obligated, to conduct quarterly tender offers for up to 5.0% of the aggregate NAV of its Common Stock then outstanding at the applicable NAV per share as of the applicable valuation date. Repurchases will be made at such times and on such terms as may be determined by the board of directors of the Fund, in its sole discretion. However, no assurance can be given that repurchases will occur or that any Common Stock properly tendered will be repurchased by the Fund. The Fund’s shares have no history of public trading, and it is not intended that the Fund’s shares will be listed on a public exchange at this time. No secondary market is expected to develop for the Fund’s shares.

The investment return and principal value of an investment will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than the original cost. Due to these restrictions, an investor should consider an investment in the Fund to be illiquid investment. The Fund is suitable only for investors who can bear the risks associated with the limited liquidity of the Fund and should be viewed as a long-term investment. Investing in the Fund is speculative and involves a high degree of risk, including the risks associated with leverage and the risk of a substantial loss of investment. There is no guarantee that the investment strategies will work under all market conditions.

Information contained herein has been obtained from sources deemed to be reliable but not guaranteed. This material represents views as of November 2025 and is subject to change without notice of any kind.

The purchase and repurchase price for shares of our common stock will be based on the NAV of each class of common stock and will not be based on any public trading market. Because valuation of properties involves subjective assumptions and projections, our NAV may not accurately reflect the actual price at which our assets could be liquidated on any given day. It also may be difficult to reflect fully and accurately rapidly changing market conditions or material events that may impact the value of our commercial real estate investments between valuations, or to obtain complete information regarding any such events in a timely manner. As a result, our NAV per share may not reflect a material event until such time as sufficient information is available and the impact of such an event on a property’s valuation is evaluated in accordance with our valuation policies.
